

## Disaster Available Supplies in Hospitals (DASH) Tool User Experience Questions

We are interested in learning more about your experience using the DASH Tool. Your feedback will remain anonymous and be used to inform future improvements. **Note:** you must download the form to use the "submit" button. You can also save and send your PDF to [askasprtracie@hhs.gov](mailto:askasprtracie@hhs.gov).

1. What is your hospital type (e.g., Level 1 trauma center, critical access hospital, etc.)?

For questions 2-8, please provide feedback on those modules you have used.

	Hospital Pharmacy Module	Burn Supply Module	Trauma Supply Module	Personal Protective Equipment Module
2. Which module(s) did your hospital use?				
3. What is the role of the person who completed the module(s)?				
4. Did that person work with others to complete the module(s)? If so, what is their role?				
5. Approximately how long did it take to complete the module(s)?				
6. Was the information for the user inputs readily accessible or was it difficult to gather?				
7. Was the level of time and effort needed to complete the modules appropriate to the tool's usefulness in your planning process? (Yes/No)				
8. In general, were the recommended supply quantities close to what you currently have on hand? If no, what types of recommended supplies were:				
Significantly greater than what you had on hand?				
Significantly lower than what you had on hand?				

9. Did you/do you plan to make any specific changes to the type or quantity of supplies your hospital has on hand due to your DASH outputs?

10. Did you discuss your results with anyone outside your hospital (e.g., another part of your health system, your HCC, your supply chain partners)?

11. Is there a coordinated effort in your region to complete and share results from the DASH Tool?

12. How do you think the DASH Tool benefits your hospital/regional planning?

13. Was there anything missing from the tool that should be considered if it is revised in the future?

14. Please share any other thoughts you may have about your experience using the DASH Tool.
