

Webinar  
*January 29, 2019 ~ 1:00 – 2:00 PM ET*

During this webinar, public and private partners will share how they have used ASPR's [Healthcare and Public Health Risk Identification and Site Criticality \(RISC\) Toolkit](#), version 1.0. The toolkit contains an objective, data-driven, all-hazards risk assessment tool with the potential to inform emergency preparedness planning, risk management activities, and resource investments. Developed with the input of a team of healthcare partners and risk management subject matter experts, the RISC Toolkit is designed to help healthcare facility owners and operators identify risks in an easy-to-follow format using objective national-level data. After providing a brief description of the tool, the speakers will discuss how they have implemented the RISC toolkit and share success stories and lessons learned. Attendees will have a chance to ask questions at the end of the webinar.

The webinar will take place **Tuesday, January 29, 2019 from 1:00-2:00 PM ET.**

### PANELISTS

- **Brittney Seiler**, MPA, Public Health Analyst, Division of Critical Infrastructure Protection, HHS ASPR (Moderator)
- **Laura Wolf**, PhD, Director, Division of Critical Infrastructure, HHS ASPR
- **Scott Cormier**, CHEP, NRP, Vice President, Emergency Management, EC, & Safety
