

## Introduction to the Disaster Available Supplies in Hospitals (DASH) Tool *August 15, 2022 ~ 11:30am-12:30pm ET*

Hospitals deal with stressed supply chains every day. Just-in-time inventory is common, and hospitals run the risk of not having enough supplies when a disaster strikes. The U.S. Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response Technical Resources, Assistance Center, and Information Exchange ([ASPR TRACIE](#)) and [Healthcare Ready](#) developed the Disaster Available Supplies in Hospitals (DASH) tool in collaboration with the [Health Industry Distributors Association](#), the [Region VII Disaster Health Response Ecosystem](#), and other subject matter experts to address this challenge. [DASH](#) is an online, interactive tool for hospital emergency planners and supply chain staff to estimate supplies that may need to be immediately available during various emergencies based on their hospital's characteristics. Speakers in this webinar will provide an overview and demonstration of DASH and share information on how it may be used from both the hospital and supply chain perspective.

### SPEAKERS AND PARTICIPANTS

**Administrative Remarks:** Shayne Brannman, MS, MA, Director, ASPR TRACIE

**Opening Remarks:** Meg Sullivan, MD, MPH, Chief Medical Officer, ASPR

**Speakers:**

- **John Hick**, MD, Senior Editor, ASPR TRACIE and Hennepin Healthcare
- **Linda Rouse O'Neill**, Vice President of Supply Chain Policy and Executive Branch Relations, Health Industry Distributors Association (HIDA)
- **Shelly Schwedhelm**, MSN, RN, NEA-BC, Executive Director, Emergency Management and Biopreparedness, Nebraska Medicine and Executive Director, Global Center for Health Security
- **Ryan Dadmun**, Technical Specialist, Healthcare Ready

**Target Audiences:**

- Hospitals
- Healthcare Coalitions
- Emergency Management Agencies
- Supply Chain Partners
- Public Health Agencies

### REGISTRATION

[REGISTER HERE](#) for this free webinar; it will also be recorded and archived on the ASPR TRACIE website. Each registrant will receive a unique link needed to access the webinar. **Please note:** *The link can only be used on one computer; registrants should not forward their registration confirmation emails to others.* Registration is limited to the first 1,000 participants. Where possible, register once per office/organization and view the webinar as a group to allow the maximum number of participants.

**Audio:** You can use your computer microphone and speakers (VoIP) or telephone. A phone number and PIN will be provided after logging into the webinar.
