

# Healthcare System Cybersecurity Response: Experiences and Considerations

## Webinar

March 18, 2021 ~ 1:30-2:45 PM ET

As part of our nation's critical infrastructure, healthcare facilities large and small must be proactive and move quickly to protect themselves from cyberattacks that could directly impact the health and safety of patients and the community at large. According to medical health experts experienced in cybersecurity preparedness, cyberattacks are identified as the top threat in many healthcare systems' annual Hazard Vulnerable Analyses (HVA). Healthcare systems, government agencies, and other partners have worked diligently to defend against the growing number of cyberattacks on the healthcare industry.

Presenters on this webinar will discuss their experiences and tangible lessons learned in responding to cybersecurity incidents. This webinar builds upon the recently released [Healthcare System Cybersecurity: Readiness and Response Considerations](#) document and accompanying [overview presentation](#) of how to use the resource. The webinar will take place on **Thursday, March 18, 2021 from 1:30-2:45 PM ET.**

## SPEAKERS

**Moderator:** John Hick, MD, Hennepin Healthcare

**Introductions:** Laura Wolf, Ph.D., Director, Division of Critical Infrastructure Protection, HHS ASPR

**Speakers** (listed in alphabetical order):

- **Lisa Bazis**, MS, Chief Information Security Officer, Nebraska Medicine
- **Craig DeAtley**, PA-C, Director, Institute for Public Health Emergency Readiness, MedStar Washington Hospital Center
- **Dawn Straub**, MSN, RN, NEA-BC, Executive Director, Nursing Professional Practice & Informatics, Nebraska Medicine

## REGISTRATION

[REGISTER HERE](#) for this free webinar; it will also be recorded and archived on the ASPR TRACIE website. Each registrant will receive a unique link needed to access the webinar. **Please note:** *The link can only be used on one computer; registrants should not forward their registration confirmation emails to others.*

**Audio:** You can use your computer microphone and speakers (VoIP) or telephone. A phone number and PIN will be provided after logging into the webinar.
