Discussion Question #1

How have preparedness and response efforts changed over the last several years as it pertains to planned and unplanned power outages in each of your organizations?

Discussion Question #2

Planned and unplanned power outages have occurred during, or even because of, other emergencies, such as wildfires and the COVID-19 pandemic. What are some of the challenges that your organizations have faced in responding to multiple emergency situations that include the loss of power, whether or not it was planned in advance?

Discussion Question #3

What are some best practices or resources that you have found helpful in preparing for and responding to planned and unplanned power disruptions?
