

ASPR TRACIE COVID-Specific Experiences from the Field

Pharmacy, Therapeutics, and Supply Chain Issues during COVID-19

The COVID-19 pandemic brought healthcare and public health, emergency medical services, and emergency management together in unprecedented ways to adjust healthcare operations. These resources cover the role of pharmacists in the pandemic, therapeutics and equitable and efficient distribution, and meeting supply chain challenges.

[2020 in Review: Medical Supply Chain Responses to the COVID-19 Pandemic](#)

Nicolette Louissaint, PhD, the Executive Director of Healthcare Ready, shares how they leveraged unique relationships with government, nonprofit, and medical supply chains to build and enhance the resilience of communities before and during the COVID-19 pandemic.

[Community Pharmacists' Role in COVID-19](#)

Dr. Alfred L'Altrelli, PharmD, Administrative Director of Pharmacy, UPMC Presbyterian discusses how the role of pharmacists in has evolved in general—beyond product dispensing to patient-centered care—and how this has manifested during the pandemic.

[Methods for Monoclonal Antibody \(mAb\) Therapy](#)
