### Zika: Resources at Your Fingertips

On July 7, 2016 ASPR TRACIE released an updated version of "[Zika: Resources at Your Fingertips](#)," to reflect revised resources and new information. As the situation unfolds and new information is released, ASPR TRACIE will continue to update the document (and indicate changes in red font with the date), so be sure to check back often.

### Cybersecurity Resources

In early July, U.S. Department of Health and Human Services Secretary Burwell released [a letter and guidance for protecting networks from ransomware](#). At the same time, ASPR TRACIE released [Issue 2 of The Exchange](#), which focused on cybersecurity and hygiene and featured authors from the American Hospital Association, MedStar Health, the U.S. Food and Drug Administration and the Healthcare Industry Cybersecurity Task Force. We also hosted a roundtable with subject matter experts titled "[Cybersecurity and Healthcare Facilities](#)," where speakers shared lessons learned from the recent attack on MedStar Health, general information about cyberattacks and cyber hygiene, and the collaborative effort being taken by the federal government to address this threat. Our [Cybersecurity Topic Collection](#) includes annotated resources reviewed and approved by a variety of subject matter experts. We hope this information makes your work easier and helps you secure your facility and data, and we encourage you to [share additional best practices](#) or ways you have addressed this issue with ASPR TRACIE, so others may benefit from your advances.

### Domain Updates
